Designer Sets Catalogue

Designer Sets

Bookbindesigns proudly offer unique Designer Sets made up of Hand Tools and Flat Pallets.

Each set of Bookbinding finishing tools creates a stunning cover to any book or project. A sample page of artistic designs for each set has been provided in the catalogue to show you the stunning designs that can be created but these are endless with imagination.

Our designer sets can be used by amateurs or experienced Bookbinders alike. Our finishing tools are not just limited to Bookbinders as these can be used to make an impression on any leather product. We can also create a makers mark stamp from the Hand Tool designs.

These tools require heat to make the impression onto leather. These work well using gold leaf, foil or simply blind embossing.

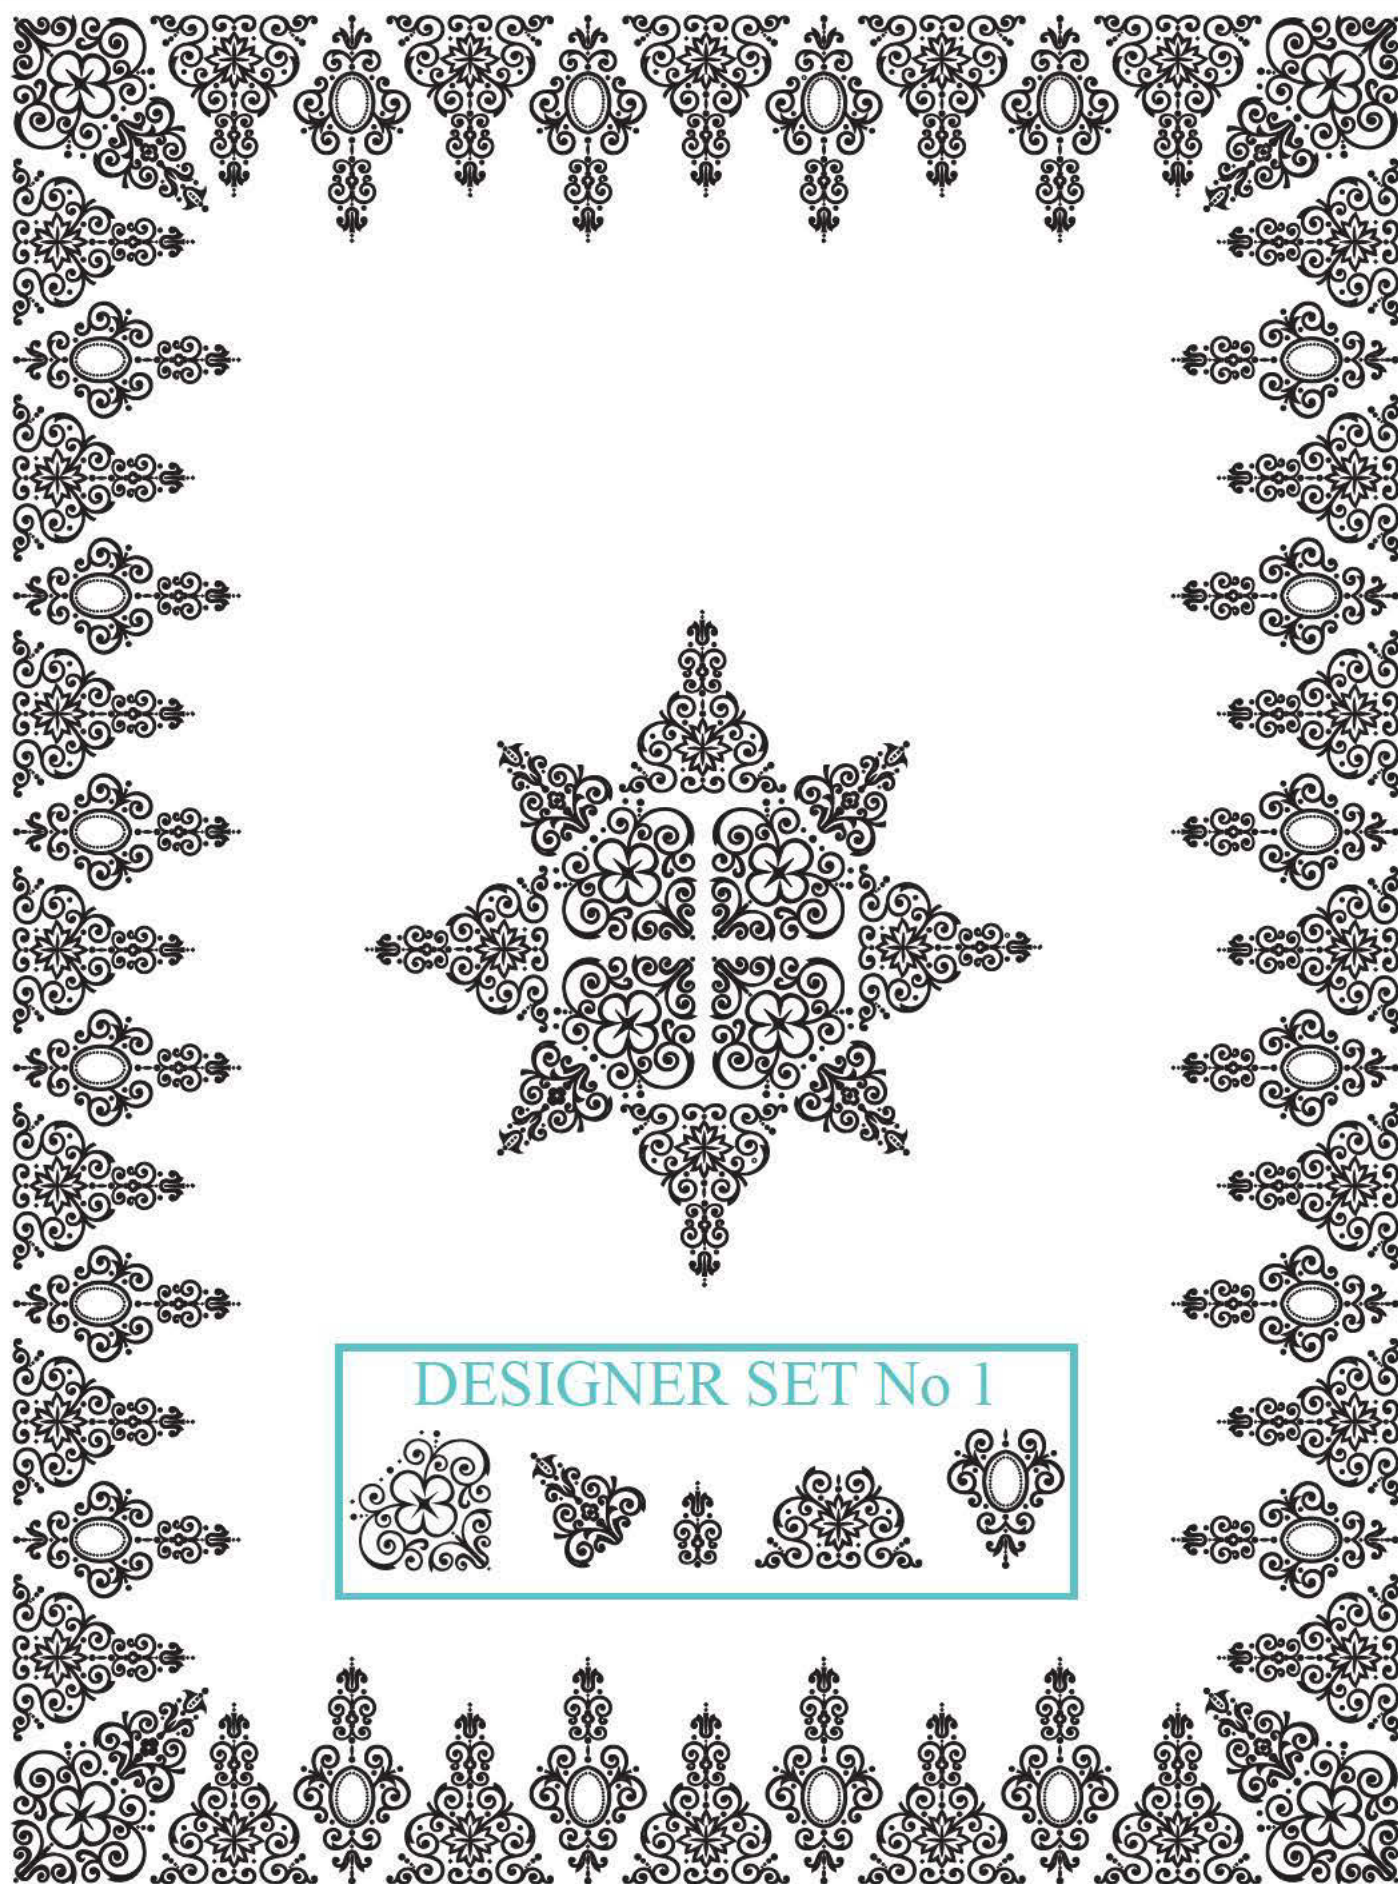

We supply all of our beautifully crafted Designer Sets come complete with Ash hardwood handles and chrome ferrules also supplied in a wooden box for the long life and protection of the tools. We can also send a PDF illustration artwork if required.

Please contact us to discuss your design and size requirements.
